## FRONTEND DEVELOPER - REACTJS

📞 9079477156

✉ oranjane010@gmail.com

📍 Dombivli, Mumbai

---

### CAREER OBJECTIVE

Entry-level Frontend Developer with hands-on experience in building responsive web applications using ReactJS, JavaScript, HTML, and CSS. Skilled in React Hooks, component-based architecture, REST API integration, and UI optimization. Completed a ReactJS internship and worked on multiple web projects. Eager to contribute to scalable and user-friendly frontend applications.

---

### TECHNICAL SKILLS

- Frontend Technologies: ReactJS, JavaScript (ES6+), HTML5, CSS3
  - React Concepts: useState, useEffect, Props & State, Component Reusability
  - API & Integration: REST APIs, Fetch API, JSON
  - Backend (Basic): Java, MySQL
- 

### PROJECTS

#### User Authentication System | Java, Servlets, JDBC, ReactJS, MySQL

Sep 2025

- Designed and developed a full-stack authentication system with user registration and login.
- Built backend APIs using Java Servlets and JDBC with MySQL database integration.
- Implemented server-side validation and used Prepared Statements to prevent SQL Injection.
- Deployed the application on Apache Tomcat and followed MVC architecture.
- Integrated ReactJS frontend forms with backend APIs.

#### Nike Store – Frontend E-Commerce UI | ReactJS, JavaScript, HTML, CSS

Nov 2025

- Developed a responsive Nike Store frontend with modern UI and reusable React components.
- Implemented product listing, product details, and add-to-cart UI functionality.
- Used React state management for cart and product interactions.
- Ensured mobile-first design and cross-browser compatibility.

#### Todo List Application | ReactJS, JavaScript, HTML, CSS

Aug 2022 – Jan 2023

- Built a Todo List application to add, edit, delete, and mark tasks as completed.
  - Used React useState for managing task state and conditional rendering.
  - Implemented clean UI with real-time updates on user actions.
  - Focused on component reusability and basic user experience best practices.
-

## EDUCATION
